University course search tools

Course Seeker

The Course Seeker website contains a national course comparison tool which allows students to search, select and compare higher education courses and filter search results by ATAR, study area and location, www.courseseeker.edu.au

View course ATARs

Year 12 students can view the ATAR profiles for university courses by using the course search functions on state based Tertiary Admission Centres.

Course ATARs can be used as a guide when planning for post school studies. It's important to note that as ATARs are based on the demand for a course, they may rise or fall for the 2022 intake.

Students will be able to view the lowest ATAR and lowest Selection Rank (ATAR inclusive of equity and academic bonus points) to receive an offer.
